B450 Brushcutter

**A powerhouse
that will
clear heavy
undergrowth
and trees
up to four
inches thick**

shindaiwa

B450 Brushcutter

Full anti-vibration fuel system

Ergonomic handlebar with integrated controls

Durable gearcase with helical gears

Heavy-duty debris shield

Aircraft-grade aluminum outer tube

One-piece solid steel mainshaft with splined ends for smoother clutch engagement

Specifications

DISPLACEMENT	41.5 cc
OUTPUT	1.7 kW
DRY WEIGHT*	17.9 lbs (8.1 kg)
LENGTH	70.5 in (1,80 mts)
CARBURETOR	TK Slide-valve
FUEL CAPACITY	34.0 oz (1 liter)

*Weight without safety guard and cutting attachment.

Characteristics

- Precision 2-cycle engine with chrome cylinder, 2-ring piston, and 1-piece electronic ignition. All ball-and-needle bearing construction.
- Ergonomic handlebar with integrated controls for operator comfort.
- Full anti-vibration system reduces operator fatigue.
- Adjustable carburetor allows precise fuel measurement for optimal performance.
- Large capacity fuel tank for prolonged work periods.
- Access to air filter without the use of tools.
- Heavy-duty gearcase that can use 2 mm or 4 mm thick blades.
