

shindaiwa®

Speed-Feed® 450 & 375

**Load Trimmer Line in
30 Seconds or Less!**

PROFESSIONAL

SHINDAIWA

Designed to
Shindaiwa's
high standard
of excellence,
the patented
Speed-Feed®
375 and 450
are the best
bump-feed
trimmer heads
in the business.

The Shindaiwa Speed-Feed® trimmer heads can be reloaded *without dismantling*. Simply line-up the eyelets, thread the line through the trimmer head until it exits the opposite eyelet and pull a couple of arms lengths of line. The line is quickly and easily loaded on the spool by turning the large knob on top of the trimmer head. It's just that simple! The average time to reload line is 30 seconds!

Load Trimmer Line in 30 Seconds or Less!

Inner wall reduces amount of dirt inside head

Line tensioning system with split spool reduces head vibration

Shindaiwa models: Fit all straight shaft or curved shaft trimmers and brushcutters

Universal models: Fit most trimmers in the market

Smooth and durable, the large bottom cover taps on ground to advance line and allows head to glide while trimming

Lightweight, fast-loading, bump-feed trimmer head

Large, durable eyelets enhance line life

Additional Features

Speed-Feed® 450

- Spool holds 20 feet (6.1 m) of .095" (2.4 mm) line.
