

Shindaiwa Introduces New Trimmer Line

Shindaiwa has announced the availability of a unique and newly designed trimmer line called Silentwist™.

Made from a durable high-grade resin material, the smooth-glide spiral shape of the Shindaiwa Silentwist™ trimmer line has many advantages:

- 10% reduction in high frequency noise versus round, square and star shaped lines.
- Decreased vibration at the trimmer head for smoother cutting.
- Improved engine efficiency for reduced fuel consumption and emissions.
- Increased trimmer head speed compared to round, square, and star shaped lines.
- Better elongation before trimmer line fracture
- The blue colored line is available in diameters of .080", .095", .105", and .130" and is packaged in three languages with a bar code.
